INTRODUCTION

The founders of Element Accessories (Spain, Finland, Belgium) have backgrounds in industrial design, interior architecture and product manufacturing, as well in Europe as in China. It is the passion for materials, design and quality that brought them together.

With a passion for nature, we want to give Earth's elements center stage: Earth, Wood, Metal, Water and Fire. Through design, we will demonstrate the specificities of the elements.

Element Accessories' forms come from a mix of European styles, classic and modern, sometimes with a Chinese accent. Our team combines talents from floral art till wood craftsmanship.

We also consider business as an art form, our aim is to bring affordable quality to end users. We analyze every part in the supply chain. Through savvy marketing, we want everyone to feel our brand.

That is the concept of Element Accessories.
