

ORIENTAL

ELEMENT ACCESSORIES - ORIENTAL SERIES

a collection of modern ceramics

for Element Accessories
by talented Chinese designers

West meets Eastern high-end design

OTARU

ULFUR

INTRODUCTION

Element Accessories

Is a brand ... created by Europeans expats in China, passionate about the decoration and design industry, developing quality design objects that answer to current market needs.

Our products belichamen zowel de wetten van de klassieke estheathiek alsook de sfeer van onze tijd, een licht modern touch in een design dat altijd kan blijven meegaan.

We streven niet enkel naar tijdloze vormen maar ook naar

ORIENTAL collection

A special series was developed when the founders observed over their past 15 years in the Chinese design industry how:

- a new group of talented Asian designers is growing,
- a new modern identity is developing
- China is truly becoming a center of innovation

(after having become the factory of the world, acquiring and expanding the know-how of craftsmanship and production efficiency)

INTRODUCTION

the designer : **Suns**

Element Accessories has collaborated with a famous Chinese design talent, who has already conformed by winning several design prizes like the Red Dot Award for his Chair....

He has roots in the traditional art of Feng Shui, studied the modern western design theories, and combines all that into objects that breathe a new identity that he shares with several of his colleagues in the avant-garde of the China New Modern.

series

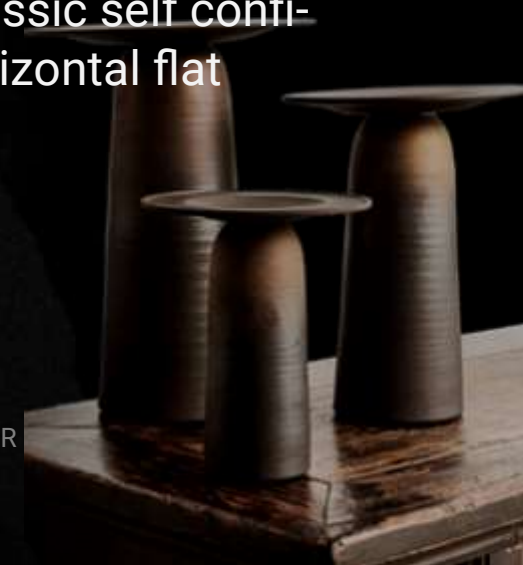

In this first catalogue we bring you two series, they are made of ... black to bronze color... what finish etc...

OTARU has 4 tiny feet, that refers to the antique urns in China's history, the proportion are similar to the classic Han dynasty pots, the shape is new yet it feels like it's been around for ages.

The 3 vases of ULFUR are of such innovative design that it's hard to conceive this was only just invented... because the shapes breathe some kind of classic self confidence. The verticality is countered by a horizontal flat bowl.
