ULFUR

INTRODUCTION

Element Accessories

Is a brand ... created by Europeans expats in China, passionate about the decoration and design industry, developing quality design objects that answer to current market needs.

Our products embody both the laws of classical aesthetics and the atmosphere of our times, a slightly modern touch in a design that can last forever.

We strive not only for timeless shapes but also for superior quality yet always keeping it affordable for the enthusiasts. **"Value for money" is also an art.**

ORIENTAL collection

We observe how in the past 15 years the Chinese design industry evolved:

- a new generation of talented Asian designers,
- developing their own (modern) identity,
- China becomes a center of innovation

(after having become the factory of the world, acquiring and expanding the know-how of craftsmanship and production efficiency)

So we decided to make a special collection and commit to explain to the world that **new identity in the making, the "new modern"** of Chinese design. A welcome fresh breeze in the home fashion industry.

INTRODUCTION

the designer : **Suns**

Element Accessories has collaborated with a famous Chinese design talent, who has already confirmed by winning several design prizes like the Red Dot Award for his Red Chair.

He has roots in the traditional art of Feng Shui, studied the modern western design theories, and combines all that into objects that breathe a new identity that he

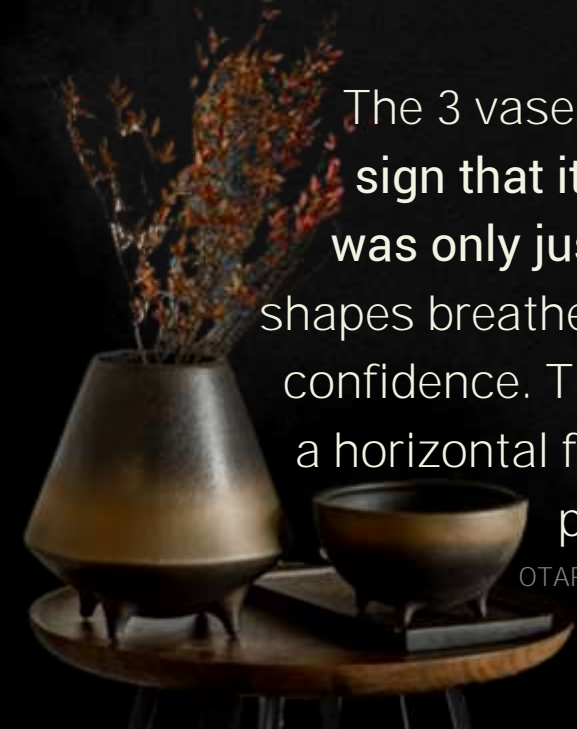

The collection

In this first catalogue we bring you two series, they are made of fine ceramic in black color that blazes to bronze color, a craft that requires highly skilled manufacturers.

OTARU has 4 tiny feet, that refers to the antique Chinese urns, the proportion are similar to the classic Han dynasty pots, the new original shape feels like it's been around for ages.

The 3 vases of ULFUR are of such innovative design that it's hard to conceive this was only just invented... because the shapes breathe some kind of classic self confidence. The verticality is countered by a horizontal flat plate shape, perfectly proportioned at the top..
